- All models are IP24 rated meaning they are suitable for permanent installation internally or externally.
- Pull cord operation.
- Silver grey finish.
- 1 year guarantee.
- Model no:
  - IRX50N
  - IRX120N
  - IRX200N

Infrared Heaters

## IRX

Model	Loading	Length	Height	Depth	Weight
IRX50N	0.5kW	764mm	114mm	92.5mm	2.0kg
IRX120N	1.2kW	764mm	114mm	92.5mm	2.0kg
IRX200N	2kW	764mm	114mm	92.5mm	2.1kg

## Technical Specification

### Electrical Connections – All Models

Supply cable is not provided. Provision is made for connection to fixed wiring only with surface wiring or flexible cord entering through a bushed hole in the bottom or side of the base plate.

### IP Rating

All models are IP24 rated.

**Controls**

Built-in double-pole pull-cord switch

**Elements**

Spiral element(s) encased in transparent insulating silica sleeves.

**Clearances**

- 600mm to curtain
- 300mm to wall

**Reflector**

Angle adjustable on installation and lockable.  
Infrared Heaters

## **Bathrooms**

Any electrical appliances installed in a bathroom should be fitted by a competent electrician in accordance with the current I.E.E. Regulations. Portable heaters are NOT suitable for use in a bathroom. Unless otherwise specified, heaters that can be permanently fixed have to be mounted so that any controls cannot be reached by a person using a bath or shower. This restriction does not apply to Dimplex heated towel rails, which do not have controls.

## **Safety**

Dimplex products are designed to comply with EN60335 the British Standard covering the safety requirements of electric heating appliances, and momentary contact with any part of the heater should not cause injury. However, in order to be effective, heaters or towel rails of any type do get hot especially (if applicable) around the air outlet grille. Therefore if aged or infirm persons, or young children, are likely to be left unsupervised in the vicinity of a heater we advise that precautions should be taken. We recommend that a guard is fitted around the heater, as is normal with many types of heating appliances in similar circumstances, to ensure contact with the heater is avoided and objects cannot be inserted into the product. Heating appliances should never be covered or positioned where objects may fall onto them.

## **Specifications**

Dimplex policy is one of continuous improvement. The company therefore reserves the right to alter specifications without notice. Although every care is taken in the reproduction of product finish in this brochure, the colour photographs should be taken as a guide only. This information is correct at the time of printing. You are advised to consult your dealer before purchasing.

## **Plugs**

All portable appliances are supplied with a fitted plug.

## **British Electrotechnical Approvals Board - BEAB Approved**

The mark of the British Electrotechnical Approvals Board signifies that the appliance bearing it has been produced to the stringent safety requirements for domestic electrical appliances as laid down in EN60355.

## **CE Mark**

Products carrying the CE mark comply with European safety standards and the European Standard for electromagnetic compatibility.

## **Installation Guidance**

This information is designed to assist you with your choice of Dimplex products and it is not intended as an installation guide. For safety, products should only be installed by a competent person, in accordance with current regulations and the manufacturers instruction. If you require advice concerning the installation of our products – especially where the installed dimensions may be critical and the location of the product – please consult your supplier.
