

## Datasheet

# RS Pro Pipe Mounting Bracket Kit Trace Heating Mounting Bracket

RS Stock No: **665-7570**

## Product Details

RS Pro pipe mounting bracket kit is designed for the control of surface temperatures of trace heating pipes and vessels within a hazardous area. This pipe sensing model has a protected capillary tube with surface mounting sensor bulb. The thermostat is adjustable over a wide temperature range and is an 'on/off' unit with electrical switch operated by expansion of the liquid in the sensing bulb or capillary. It is suitable for use in corrosive and dust laden atmospheres.

## Features and Benefits

- Designed for the control of surface temperatures of trace heating pipes and vessels within a hazardous area
- Pipe sensing models have a protected capillary tube with surface mounting sensor bulb
- All thermostats are adjustable over a temperature range and are 'on/off' units with an electrical switch operated by expansion of the liquid in the sensing bulb or capillary
- Suitable for use in corrosive and dust laden atmospheres

## Specifications:

Dimensions	197 x 298 mm
Hazardous Area Certification	ATEX
Height	298 mm
Minimum Operating Temperature	-50°C
Type	Pipe Mounting Bracket Kit
Width	197 mm
