

Description

A highly effective precision electronic cleaning solvent. Advanced formulation, non-conductive and low odour, which is ideal for the safe and effective cleaning of electrical contacts and switches. Fast evaporation rate, leaving no residues on treated equipment and does not frost on use thus preventing condensation on precision electrical parts and contacts. An effective light duty degreaser that will remove oils, waxes and silicone. Safe for use on all plastic and rubber surfaces. Ideal for quick and efficient cleaning of:

- PCBs, electrical contacts and switches
- Electrical and electronic assemblies
- Relays, transistors and condensers
- Precision instruments
- Electric motors
- Communications equipment

N.B. Not for use on live equipment.

Directions for use

Shake well before use. Hold in an upright position, spraying directly onto the surface from a distance of 30cm.

DANGER

Contains: Isopropyl alcohol.
Extremely flammable aerosol. Pressurised container: May burst if heated. Causes serious eye irritation. May cause drowsiness or dizziness. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray. Do not get in eyes, on skin, or on clothing. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.
