

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **10 mm Length:** Compact size suitable for a variety of applications, ensuring versatility.
- **18.04 mm Outside Diameter:** Offers a stable fit and easy integration into existing systems.
- **13.98 mm Shaft Diameter:** Ensures compatibility with standard shaft sizes, facilitating easy installation.

RS PRO 10mm Sintered Bronze Plain Bearing

RS Stock No: 528-304

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it ensures durability and reliability in demanding environments. Ideal for reducing friction between moving parts, this bearing enhances performance and extends the lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	13.98 mm

Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	18.04 mm
