RS Stock No.: 375-0152

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

Easily warm up or cool down your indoor space with this thermostat from RS PRO. This handy system works with both heating and cooling systems, such as air conditioning units.

Its simple, white interface has a control dial that can be adjusted by turning to the easy-to-read, grey numbered temperature markings. Installation is easy with a helpful wall mount on the back of the device. You'll commonly find it in both commercial and domestic settings, such as restaurants, shops, workshops or garages. Users can set the thermostat to temperatures between -20°C and +35°C.
