works for
both single
layer and
double layer
plasterboard**

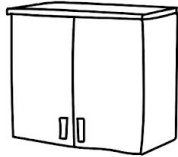

Double layer 25 mm

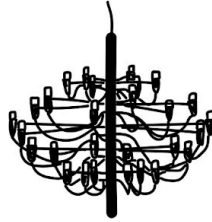

Use for all your heavy installations

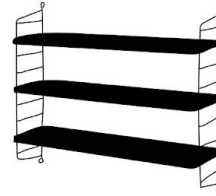

TVs

Cabinets

Ceiling lamps

Shelves

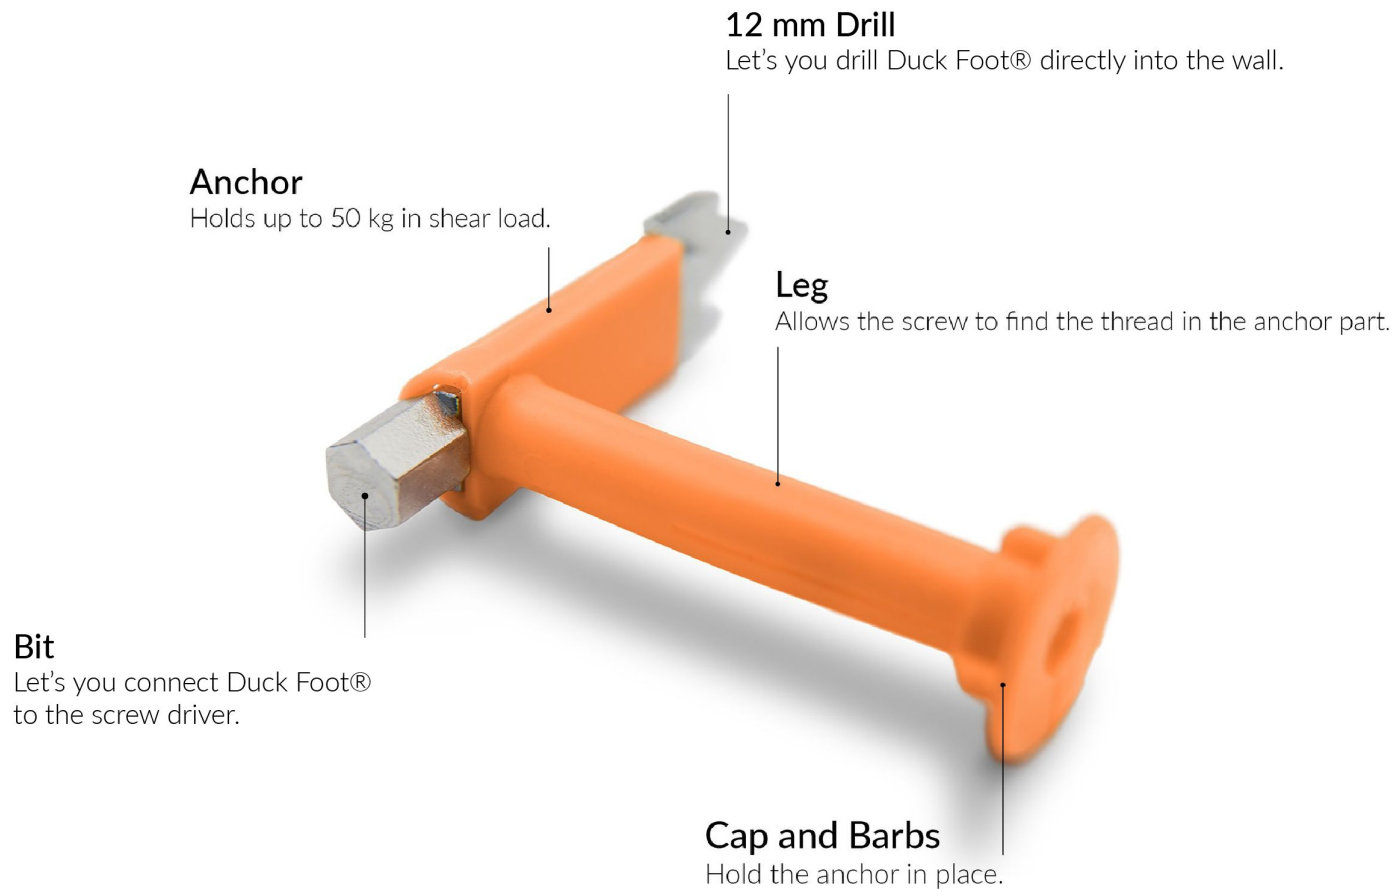

Speakers

Finalist of the Alfred Nobel SKAPA award.

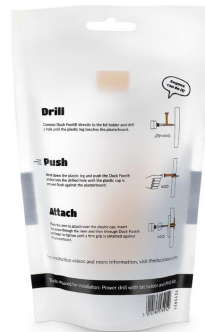

SKAPA

"plaster is a very porous material and todays methods for attaching heavy items on plasterboards are time consuming. By using Lucas Lind and Magnus Liljenfeldts fixing you simplify the work, save time and reduce the impact on the plasterboard during disassembly" - The jury
