

7 Series Ex db Fluorescent Luminaire

Zones: **1** **2** **21** **22** Cat: **2**

High efficiency Zone 1 and Zone 21 T8 Luminaire in both standard and emergency formats for use in hazardous areas. A range of sizes from 1-6ft with light output up to 12,400 Lumens. *Subject to lamp choice

Extremely versatile, allowing a wide range of lamps to be fitted from 8W to 70W. Emergency models are fitted with integral batteries (3 hour duration) and charging units for ease of fitting and maintenance. Manufactured from impact resistant polycarbonate and high specification marine grade aluminium, the fitting is supplied anodised and painted.

- ✓ Can be used in high ambient temperatures (up to 55°C 8W 52°C)
- ✓ 230v 50/60Hz as Standard check for alternative voltages
- ✓ -20°C to +55°C (subject to lamp and ambient temperature combinations, ask for details)
- ✓ 8W (T5), 18W, 36W, 58W, 70W (T8) (Lamps not provided)

Specifications & Options

Label Marking	II 2 G Ex db IIB/IIC T* Gb II 2 D Ex tb IIIC T* Db	Certification standards	EN/IEC 60079-0, -1, -31
Zoned areas	Zones 1, 2, 21 & 22	Certificate No.s	CML 14ATEX1028X CML 21UKEX11018X IECEX CML140012X
Ambient range (max)	-20°C to +55°C (8W 52°C)	IP rating	IP66
Material	Marine grade aluminium body with high impact polycarbonate tube		
Cable entries	4 x M20 iso (3 plugged) as standard other threads available		
Electrical connections	3 wire and earth cable size 4mm ² max. Through wiring versions available		
Light source	T8 Fluorescent (T5 Fluorescent up to 2 x 39W). Compact lamp up to 2x 55W		
Light output	Various ranging from 2,300 lamp lm - 12,400 lamp lm dependant on lamp choice		
Supply voltage (s)	220-240V , 120-277V call for details of versions available		
Installation / Mounting	2 x M8 tapped holes. Size 1 335mm, size 2 632mm, size 4 1,242mm, size 5 1,542mm, size 6 1,806mm		
Control gear	Electronic ballast		
Dimensions	Size 1 448mm, size 2 752mm, size 4 1,362mm, size 5 1,662mm, size 6 1,926mm. All 158mm max diameter.		
Weight	Size 1' 3kg, size 2' 5kg, size 4' 7kg, size 5' 8kg, size 6' 9kg

7270/S6/HF	5	9	10	10	18	20

Supply voltage @230 VAC, mains impedance = 1Ω
In case of multi-pole CB the maximum number is reduced by 20%.
The maximum number may differ depending on CB manufacturer. Please consult the manufacturer specifications.
Circuit Breakers with C characteristics are recommended for LED lighting circuits.
