## GD1002

### GD1002 Powdered Latex 1.5AQL

A high quality medical grade Powdered Latex examination glove that provides excellent protection alongside superior touch and feel.

#### FEATURES

This glove, made from natural latex, has been manufactured and designed to provide you with maximum dexterity, sensitivity and comfort, thus giving you a near skin-like touch, without sacrificing the protection. The textured fingertips provide you with extra grip and the lightly powdered aspect eases donning and absorbs sweat for increased comfort. All Latex products are manufactured in accordance with FDA, ASTM or CE standards

- Dextrous, sensitive and comfortable for extended use.
- Excellent wearer comfort through high-quality natural latex that fits the hand perfectly.
- Rolled cuff provides added protection and additional strength at the wrist and prevents liquid rollback.
- Textured fingertips for improved grip.
- Lightly Powdered.
- Sizes S,M,L,XL
