

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability
- **18 mm Length:** Suitable for compact and space-constrained applications
- **24.05 mm Outside Diameter:** Ensures compatibility with a wide range of housings
- **17.98 mm Shaft Diameter:** Designed for precise fit and reduced friction

RS PRO 18mm Sintered Bronze Plain Bearing

RS Stock No: 528-984

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from sintered bronze, it offers excellent wear resistance and durability, making it ideal for applications requiring reliable performance. The bearing's compact design ensures easy integration into existing setups, providing a cost-effective solution for reducing friction and enhancing system longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	17.98 mm

Mechanical Specifications

Length	18 mm
Material	Sintered Bronze
Outside Diameter	24.05 mm
