

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **3/8 in Length:** Suitable for compact installations where space is limited.
- **0.62 in Outside Diameter:** Fits standard housings, allowing for easy integration into existing systems.
- **0.37 in Shaft Diameter:** Compatible with common shaft sizes, enhancing versatility.
- **Low Friction:** Reduces energy loss and heat generation, improving efficiency.
- **Self-Lubricating:** Minimises maintenance requirements, saving time and costs.

## RS PRO 3/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-091

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for applications requiring reliable performance and longevity.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

## Mechanical Specifications

Length	3/8 in
Material	Sintered Bronze
Outside Diameter	0.62 in
