3 Piece Car Body Preparation Kit

RS Stock number **901-0609**

3 Piece Brush Kit for Simple Car Body Preparation & Restoration. For use with Power drills, Flexible drive shafts & Angle grinders.

Features & Benefits:

- Door skin removal
- Weld preparation
- Under seal removal
- Strips into grooves, mouldings & corners without clogging
- Rust & paint removal

The Kit Includes:

1x 100mm diameter heavy duty bevel twist knot brush x M14.

(for use with angle grinder)

Ideal for heavy duty work, such as rust & paint removal, particularly under body work.

Maximum speed: 12,500 rpm

1x 75mm diameter twist knot wheel 3/8 shaft.

Fits drills and flexible drive shafts, for weld preparation and stripping grooves.

Maximum speed: 20,000 rpm

1 x 75mmdiameter crimped wire brush with 3/8 shaft.

Fits drills and flexible drive shafts, for door skin removal, mouldings and corners.

Maximum speed: 4,500 rpm

Setting Up:

For the two 75mm brushes, insert shaft into the chuck of a drill or flexible drive shaft and tighten chuck for firm grip.

For 100mm heavy duty twist knot brush connect firmly to angle grinder fitting.
