

RS PRO 1050A ALUMINIUM FOIL RANGE

High Purity. High Performance.
RS PRO Quality.

Manufactured from 99.5% pure 1050A aluminium, our new aluminium foil range delivers outstanding conductivity, corrosion resistance and formability for demanding electrical, thermal and industrial applications.

TYPICAL APPLICATIONS

Capacitors & Electronics

Cable Insulation & EMI Shielding

Electrical Coils & Transformers

Heat Exchangers & HVAC Systems

Thermal Management

Industrial Manufacturing

99.5% Pure 1050A Aluminium
High purity commercially pure grade

Excellent Thermal & Electrical Conductivity
Efficient heat transfer and high conductivity

High Corrosion Resistance
Suitable for demanding environments

Bright Reflective Finish
Clean surface for precision applications

Flexible & Easy to Form
Highly ductile for forming, bending and shaping

RoHS Compliant
Meets environmental compliance standards

AVAILABLE IN MULTIPLE ROLL LENGTHS

RS STOCK NO.	LENGTH	WIDTH	THICKNESS
0749189	500mm	305mm	0.1mm
0749190	1000mm	305mm	0.1mm
0749191	2000mm	305mm	0.1mm
0749192	5000mm	305mm	0.1mm
