DESCRIPTION

BAG 66 PIPEFITTER TOOLS INSTRUMENTIST

3 GOOD REASONS TO CHOOSE THIS COMPOSITION

Calibrated clamping for instrumentation: The combination of continuous combination wrenches, open-end pipe wrenches, 15" adjustable spanner, and 14" Stillson wrenches covers all sizes of fittings, nuts, and flanges encountered on instrument tubes.

Accurate and reproducible positioning: The 2m tape measure, precision square, magnetic level, scribe, and punch ensure reliable marking, orientation, and alignment of lines before tightening.

Complete preparation/finishing autonomy: Telescopic tube cutter, metal saw, files, chisel, brush, and hammer allow you to cut, deburr, adjust, and deliver a clean assembly without returning to the workshop, even in poorly lit areas thanks to the headlamp.
