

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long service life.
- **44.06 mm Outer Diameter:** Suitable for accommodating a wide range of shaft sizes, enhancing versatility.
- **28 mm Length:** Compact design allows for easy integration into tight spaces.
- **34.97 mm Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance.
- **Self-Lubricating:** Reduces maintenance requirements and operational costs.

RS PRO Sintered Bronze Plain Bearing, 44.06 mm Outer Diameter

RS Stock No: 518-221

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 44.06 mm outer diameter, it is ideal for supporting shafts in various mechanical systems, providing smooth and low-friction operation.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	34.97 mm

Mechanical Specifications

Length	28 mm
Material	Sintered Bronze
Outside Diameter	44.06 mm
