43-609	LEVEL TORPEDO MAG 250MM XTREME 3 VIAL	6	3253565436099

### MAGNETIC LEVEL

Features a magnetic base enabling it to be attached to ferrous surfaces, which is ideal when installing machinery or air conditioning ducting.

### SELECTING THE RIGHT LENGTH OF LEVEL

The longer the better, particularly if the surface to be levelled is not perfectly true. A shorter level will tend to follow the contour of the surface, whereas a longer level will even out the undulations.

### MARKING GAUGE

Product #	Description	Pack	Barcode

### CLUB & DRILLING HAMMERS

This should be your only choice if you intend to strike a cold chisel. The striking face of the striking tool must be larger than the chisel to be struck otherwise there is a serious risk of injury from flying metal splinters, particularly if the chisel has been allowed to mushroom too much.
