

Product information

Weller®

WD2000MAU

Code No. : WD2000MAU

Multi-function digital soldering station with pc interface and 2 x 80w outputs
Tools included are WMRP Micro soldering tool and WMRT micro desoldering tweezers

Technical data

Voltage (heater):	230v
Heating output:	Max 160 w
Heat up time:	3 sec from ambient to 399°C
Temperature range:	50°C - 450°C
Temperature accuracy:	+/- 9°C
Temperature accuracy:	+/- 5°C
Connector:	Polarized, 5 pin locking
Tool Cord:	Silicone rubber, burn resistant
Sensor Type:	Integrated sensor / heater tip cartridge
Tip Type:	RT series for the WMRP and RTW series for the WMRT
Dimensions WxDxH(mm):	134 x 147 x 108
Weight (kg)	4.3

Fast heat-up, thermal stability, and fine tips make it perfect for production or rework, in standard or lead-free applications
Heating element is built into the soldering tip for super-fast heat-up and recovery

Tools will automatically switch off when placed in the stands to extend tip life.

Micro processor allows programming of many features including temp offset, °C/ °F, set back time, temp lock to name a few.
