

Technical Specifications

REFRESHING HEADBAND ICEFLOW

Description :

Designed to provide optimal comfort in warm weather, the ICEFLOW SurfleX® cooling headband is made from a functional cooling technical fabric. The ICEFLOW SurfleX® fabric transforms heat and moisture from perspiration into an immediate cooling effect, offering optimal comfort in hot weather.

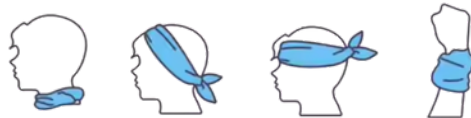

The more you sweat, the stronger the cooling effect. Lightweight, breathable and comfortable to wear, the headband helps regulate body temperature even during intense exertion or in hot weather.

Ultra absorbent and breathable

Immediate cooling: upon contact with perspiration.

Cooling material

Available colors :
Black Blue
