RS PRO 8 Way Speaker Terminal

RS Stock No.: 885927, 885928

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This 8 way Push Terminal is the perfect solution for a loudspeaker connector or lead termination. Spring loaded levers allow wires to be easily inserted or plugged, trapping them firmly once the lever is released in a crimp like manner. This ensures a solid and reliable connection to help offer cable protection with an audio, or loudspeaker solution. Colour coded for polarity. Can be panel mounted.

Generally designed for speakers and amplifiers, these terminals have numerous uses in applications requiring quick equipment interconnection.

General Specifications

Type	Push Terminal
No of Ways	8
Mounting Type	Panel Mounting

Mechanical Specifications

Body Material	ABS UL-94HB
Contact Material	Brass / Nickel plated
Operating Force	800±100gm
Wire Retention (22 AWG)	1Kg-X / 500g-Y / 1Kg-Z (see drawing below)

Electrical Specifications

Rating	7A @60V AC
Contact Resistance	<20mΩ @1A 25°C
Insulation Resistance	>100MΩ @500V DC
Dielectric Withstanding Voltage	1 minute @1200V AC

Approvals

Standards Met	RoHS
