RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO safety tag is designed to enhance safety in field operations by clearly indicating equipment status. Made from durable polyvinyl, it is ideal for environments where equipment needs to be locked off for maintenance or repair. The tag's clear messaging helps prevent accidental operation, ensuring worker safety.
