

FEATURES

- Flat earth straps made with tinned copper and a fully insulated green and yellow sleeve
- Provides RFI generated currents with a low impedance path, overcoming problems associated with the 'skin effect'
- Insulated sleeve offers electrical isolation up to 10 kV and meets the requirements of UL224
- A range of sizes to accommodate a variety of applications
- Sleeve temperature range of -55 to +135°C

RS PRO Enclosure Accessories- 150 x 13mm Insulated Earth Strap

RS Stock No.: 264-9225

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO Insulated Earth Strap For Use With Enclosure Panel

This range of insulated earth straps (also known as shunt wires, grounding straps or braided harnesses) from RS PRO offer a variety of straps made of copper with green and yellow polyolefin insulated sleeves, providing RFI generated currents with a low impedance path. These high quality earth straps with insulation are ideal for use with enclosure panels in a wide range of electrical applications and are available in a range of sizes. These durable and reliable straps feature a wide temperature range of -55 to +135°C, making them a highly versatile earth strap for use in a range of environments.

General Specifications

Type	Insulated Earth Strap
For Use With	Enclosure Panel
Colour	Green, Yellow
Application	Multi-purpose
Flammability Rating	UL 224, VW-1
Insulation Material	Polyolefin
Temperature Rating	-55 to +135°C

Mechanical Specifications

Material	Copper
Dimension	150 x 13mm
Length	150mm
Width	13mm

Approvals

Declarations	RoHS Certificate of Compliance
