

FEATURES

- **Sintered Bronze Construction:** Provides excellent wear resistance and durability.
- **1-1/4 in Shaft Diameter Compatibility:** Ensures a perfect fit for standard shafts.
- **1.63 in Outside Diameter:** Suitable for a wide range of housings.
- **Low Friction Operation:** Reduces energy consumption and wear on components.
- **High Load Capacity:** Supports heavy loads for demanding applications.

RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 558-549

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from high-quality sintered bronze, it offers excellent durability and performance. Ideal for applications requiring low friction and high wear resistance, this bearing ensures reliable operation and extended service life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.24 in

Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	1.63 in
