

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **Compact Design:** With a 3/4 inch length, it fits easily into confined spaces, making it versatile for various applications.
- **Low Friction:** Reduces wear on shafts, enhancing the lifespan of machinery.
- **Corrosion Resistance:** Suitable for use in environments where moisture or chemicals are present.
- **Easy Installation:** Simplifies maintenance and replacement processes.

RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-153

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The compact design with a 3/4 inch length makes it ideal for tight spaces, ensuring smooth operation and reduced friction.

General Specifications

| | |
|----------------|---------------|
| Product Type | Plain Bearing |
| Shaft Diameter | 0.24 in |

Mechanical Specifications

| | |
|------------------|-----------------|
| Length | 3/4 in |
| Material | Sintered Bronze |
| Outside Diameter | 0.43 in |
