

FEATURES

- **Sprung folding mechanism:** Allows the handle to fold flat when not in use, saving space and reducing the risk of damage.
- **Polypropylene and stainless steel construction:** Provides excellent durability and resistance to corrosion.
- **Black and silver finish:** Offers a sleek and professional appearance suitable for various environments.
- **75 mm fixing centres:** Ensures compatibility with a wide range of equipment and enclosures.
- **ANSI-ESD S20.20:2021 and RoHS compliant:** Meets industry standards for safety and environmental protection.

RS PRO Sprung Folding Handle, Black Polypropylene

RS Stock No: 335-159

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sprung folding handle is designed for secure and efficient handling of equipment and enclosures. Its robust construction ensures durability, while the folding mechanism allows for space-saving storage. Ideal for applications requiring reliable and ergonomic handling solutions.
