

### F - 750 Conductive Tape (Green)

Tax included price 9,309 yen

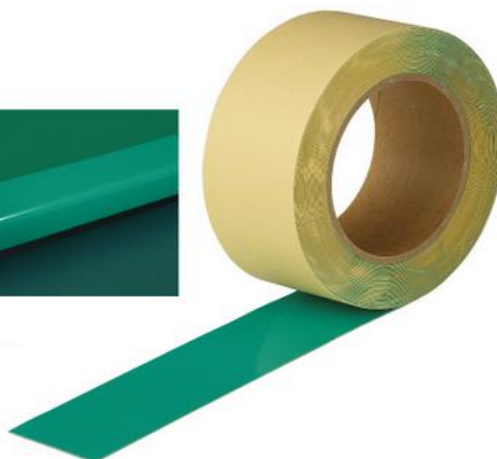

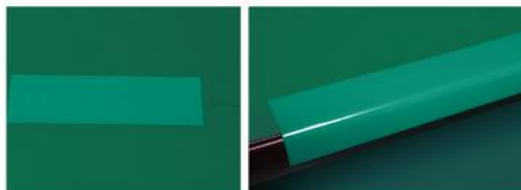

#### Conductive color mat

#### Joint special adhesive tape

- Adhesive was placed on the green layer of the conductive color mat and made into a tape shape.
- It can be used for joints and step differences when laying conductive color mats.

- Width: 50 mm
- Length: 10 m
- Thickness: 0.5 mm
- Weight: 500 g
- ESD control value: grounding resistance  $R_g \leq 1 \times 10^9 \Omega^*$
- Material: NBR

※ Only when used in conjunction with a conductive color mat.

### F-751 Conductive Tape (Yellow)

Tax included price 9,309 yen

#### In the division of the static electricity countermeasure area

- A yellow conductive tape using the same material as the color layer of the conductive color mat.
- Conductive color mats on workbenches and conductive flooring and other divisions, as line tapes for various displays.

- Width: 50 mm
- Length: 10 m
- Thickness: 0.5 mm
- Weight: 500 g
- ESD control value: grounding resistance  $R_g \leq 1 \times 10^9 \Omega^*$
- Material: NBR

※ Only when used in conjunction with a conductive color mat.

In the division of work space
