Product Description

ESD BRAKE FOR CART (pack of 2pcs)

The brake for the balancer trolley is a practical accessory that allows for precise stopping of the trolley at a chosen position on the rail. It keeps tools stable and always within reach, enhancing control over work and improving safety and ergonomics in the workplace. It is an ideal solution for environments where precision and convenience are critical. The balancer trolley brake provides greater flexibility in organizing the workspace by allowing for quick and easy immobilization of tools at any moment. Its robust construction ensures reliable performance even in high-usage environments, making it an essential component in modern production facilities that prioritize safety and efficiency.

Accessories compatible with L & H Type workbenches 1200/1500/1800/2000
