

Variable coils

5KR

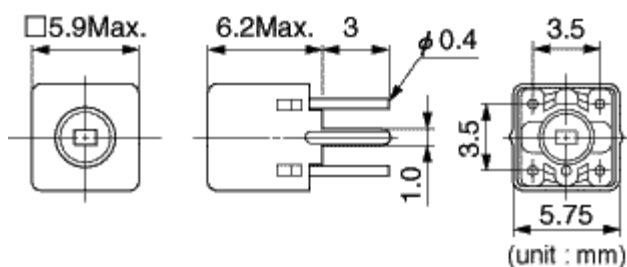

Features

- The dual, closely spaced slots on the bobbin produce high Q, tight tolerances, stable winding impedance, low distributed capacitance, and added stability in humid conditions.
- RoHS compliant.

Electrical characteristics

Frequency range	1 ~ 250MHz
Inductance range	0.1 ~ 10 μ H
Temperature Coefficient	100 \pm 150ppm/ $^{\circ}$ C

Dimensions

Tuning Method
