

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **1.5 in Outside Diameter:** Suitable for accommodating shafts with a 0.99-inch diameter, offering a precise fit.
- **1 in Length:** Compact design allows for easy installation in tight spaces.
- **Self-Lubricating:** Reduces maintenance requirements by providing consistent lubrication during operation.

## RS PRO 1 in Sintered Bronze Plain Bearing

RS Stock No: 558-527

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 1-inch length and a 1.5-inch outside diameter, it is ideal for supporting shafts with a diameter of 0.99 inches. The sintered bronze material ensures durability and excellent wear resistance, making it suitable for various industrial environments.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.99 in

## Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	1.5 in
