Technical Data Sheet

Polyurethane (“PU”) Abattoir/Butchery Die-cut Apron

Product code prefix	100. Check with our distributor for their product code number.
Abrasion & puncture	Highly abrasion-and-puncture resistant.
Care instructions	Laundry safe: machine washable and dryer safe to 82°C/180°F.
Chemicals/acids	Excellent resistance against a wide range of chemicals and acids. When confirming, please provide MSDS to our specialists for analysis.
Colours	Royal Blue, White, Red, Brown, Yellow. Check with our distributor to confirm local stocking colours.
Cracking & stiffening	Will not crack, nor stiffen, due to exposure to animal fats, degreasers, cleaning chemicals, and continuous exposure to water.
Food safety	Compliant with regulations covered by FDA, CFIA, and EU for indirect contact with food. Multiple colour choices to manage food safety risks.
Food industry info	Food safe and compliant for indirect contact with food. Anti-microbial; mould will not grow on this material. Easily launderable. This product will perform extremely well in front-line abattoir/butchery applications and is typically worn over a metal chainmail apron. The uni-body die-cut design has no fastener-type buckles that could pose as a possible food contaminant. This apron offers excellent front and side protection from fluids, etc.
Frequency of use	Highly reusable for longevity and cost savings.
Material	100% Pure Polyurethane.
Packaging	14 per box; 7 kg (15.4 lbs) per box; individually bagged.
Size	92 cm (36”) wide x 114 cm (45”) length and 92 cm (36”) wide x 127 cm (50”) length. Check with our distributor for local stocking sizes.
Storage	This product should be stored in an area not to exceed 82°C/180°F and in an area that is dry and out of direct sunlight.
Thickness	12 mil/300 microns.
Comments	Check our distributor’s range of our pure PU protective garments, giving you maximum flexibility and choices, so that you can select products to suit your applications. Their food-industry specialists will be happy to offer their expertise to ensure you’re using the right products, at the right price.

TOP DOG™

Save **BIG** with **DURABILITY!**

10 Things You NEED to Know About Top Dog pure PU Clothing

- 1. 100% unaffected by animal fats, degreasers, cleaning chemicals and water:** Awesome protection against these four elements, which are always in existence in food processing facilities. Clothing not made with pure PU will fall apart reasonably fast.
- 2. Will always stay soft “to the touch” to –65c:** Toss into a freezer for just 30 minutes and you will see that our products remain soft; will always be soft and supple!
- 3. Laundry-safe:** Easily clean in a regular washing machine. Dryer safe to 82c; However, it does not absorb moisture at all, so you can also tumble in a dryer with no heat.
- 4. Virtually nothing stains or sticks to this:** Apply paint, grease, food colouring, glues, etc to check out the wide range of items that do not stick or stain our products.
- 5. Extremely light weight and unbelievably comfortable:** Production-line workers will be much more productive, less tired and happier wearing protective clothing that is not heavy and uncomfortable. Smart employers know that this will increase productivity.
- 6. Very resistant to many, many nasty fluids/chemicals:** To test, please immerse our product in harsh and caustic chemicals, alcohols, ammonia and acids to verify its durability.
- 7. Easily repairable:** Quickly heat-weld a patch over damaged area using a household iron and brown paper between the patch and the hot iron.
- 8. Great abrasive resistance:** Our products have outstanding abrasion resistance. Rub them against rough surfaces to confirm the level of resistance.
- 9. Anti-microbial:** Expose to animal waste and waste food ingredients or very wet conditions – absolutely 100% anti-microbial. Our products will not host any bacteria!
- 10. Will NEVER crack:** Most other materials used for protective clothing will crack and fall apart in food processing facilities. **Top-Dog products will NEVER CRACK!**
