

WINSLOW ADAPTICS

Data Sheet – W9945 20 pin SO to 20 pin 0.3" DIL Programming adapter

Programming adapters are designed to convert a dual in line socketed programmer to any other IC package.

Any device designed to be field programmed, such as EPROMs can be programmed on your DIP configuration using these products.

The following adapter is pinned 1:1.

Pitch Change

Also available from Winslow Adaptics are cost effective, time saving solutions to test, obsolescence, supply problems and upgrades. OEMs can upgrade equipment with custom Adaptics utilising additional logic, often saving considerable cost and time on re-design. If lead-time becomes an issue contact us for a suitable package converter. We specialise in conversion of all package lead-frames.
