

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **4 mm Length:** Compact size suitable for tight spaces and precise applications.
- **9.03 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **5.99 mm Shaft Diameter:** Designed for optimal fit and smooth operation with standard shafts.

## RS PRO 4 mm Sintered Bronze Plain Bearing

RS Stock No: 528-941

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding industrial environments. The compact design with a 4 mm length ensures it fits seamlessly into various mechanical assemblies.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	5.99 mm

## Mechanical Specifications

Length	4 mm
Material	Sintered Bronze
Outside Diameter	9.03 mm
