

Dino-Lite Mobile AMK4012-D15 series

The ultimate solution in portable microscopy, a dedicated combination of a Dino-Lite digital microscope with high magnification and a portable digital recorder with a 5 inch LCD panel.

The D15 LCD recorder is a lightweight, pocket sized inspection device with real time image/video capture options. Pictures and videos can be recorded a microSD card, so that they can be easily transferred to the PC with the USB cable or a card reader. The D15 LCD recorder can be used with any Dino-Lite analog model with an AV connection.

Suitable for a broad range of applications, especially where it is undesirable or inconvenient to use a computer or laptop, such as scientific/medical field research, inspection in industrial/production environments, on-site forensics and in the field biological research.

Model	AMK4012T-D15 / AMK4012ZT-D15 / AMK4012TL-D15
Resolution	720x576 pixels
Magnification	10-70x,200x (AMK4012T-D15 and AMK4012ZT-D15) 10-90x (AMK4012TL-D15)
Interface	TV
Panel	5 Inch LCD
Nr. of LEDs	8
Storage	MicroSD, a 4 GB Card is included
Material	Composite
Polarizer	√ (AMK4012ZT-D15 only)
Power	Replaceable/rechargeable battery (included), charged by external adapter
Package content	Microscope 5 inch portable LCD monitor/recorder 4 GB MicroSD card USB Connection cable AC 110V/240V power adaptor & Rechargeable battery Mounting bracket for recorder ZT-Z-CC1 Closed cap (AMK4012ZT-D15 only) CA1070 watertight sturdy case User manual
