

Datasheet

Single Sided Foam Tape

RS Stock number [556-525](#)

Description:

Closed cell neoprene sealing strip having PVC support film and synthetic adhesive. This sealing strip has outstanding non-ageing properties, good resistance to acids and solvents and is suitable for a large number of applications, e.g. dust sealing, water sealing, cushioning, shock absorption, etc.

Specifications:

Adhesive Material:	Polychloroprene
Application:	Dust Sealing, Padding, Waterproofing
Backing Material:	PVC
Length:	10 m
Maximum Operating Temperature:	70° C
Minimum Operating Temperature:	-10° C
Thickness:	2 mm
Width:	12 mm
