Description :

Natural croupon crust leather apron .

The apron is secured by nylon straps riveted at the waist and around the neck by the same process.

Quick-release fasteners. Chrome-tanned.

Dimensions 90 x70 cm.

The apron is fastened with pigmented crust buckle straps riveted at the waist.

Size: One size fits all

Recommendations :

Clothing protection for torso and front legs. Welding, grinding, sandblasting. Depending on the class indicated.

The garment offers protection against limited flame propagation, against small splashes of molten metal, against radiant heat and against accidental short-term electrical contact.

Protection limits :

Type of protective clothing used during welding and related techniques class 2.

This garment must be used properly closed and tight.

Not suitable for handling chemicals or liquids.

For complete protection against the hazards encountered by welders, PPE covered by other standards should be worn in addition, to protect the head, face, hands and feet.

Packaging, care & maintenance, storage :

The clothing is packaged individually. No special care is recommended. Store in a cool, dry, well-ventilated place, away from light.

Before use, check the garment visually for defects, holes, tears and wear. If the wearer suffers symptoms similar to sunburn, UVB rays are being transmitted. The garment should be repaired or replaced, and additional, more resistant protective layers should be considered.

Recycling :

Safe destruction by mechanical destruction or incineration

Marking :

The CE mark affixed to this apron signifies compliance with the essential health and safety requirements of European Regulation 2016/425 on personal protective equipment (PPE).

Safety :

We declare that the product does not contain substances at levels which are known or suspected to have adverse effects on the hygiene or health of the user under foreseeable conditions of use. Its design does not cause irritation or discomfort to the wearer.
