

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **50 mm Length:** Suitable for various industrial applications requiring specific dimensional compatibility.
- **70.1 mm Outer Diameter:** Ensures a snug fit in compatible housings.
- **62.97 mm Shaft Diameter:** Designed to accommodate standard shaft sizes for seamless integration.
- **Low Friction:** Enhances efficiency and reduces energy consumption.

**RS PRO 50 mm Sintered Bronze Plain Bearing, 70.1 mm Outer Diameter**

RS Stock No: 518-243

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient motion support. Made from high-quality sintered bronze, it ensures smooth operation and durability. Ideal for use in machinery where low friction and high load capacity are essential, this bearing offers excellent performance and longevity.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	62.97 mm

## Mechanical Specifications

Length	50 mm
Material	Sintered Bronze
Outside Diameter	70.1 mm
