Uncoated Wellbeing Glove

Cat I. Light Weight Plant-Based; Non-Coated Wellbeing Glove.

Key Features:

- Made from plant-based, Micro Modal yarn with a closed-loop manufacturing process, supporting sustainability goals.
- Natural comfort with ultra-soft Micro Modal yarn, provides a silky feel, gentle on sensitive skin and prevents irritation.
- Fine gauge seamless knitting enhances dexterity and comfort, making the glove suitable for extended wear.
- Ensures unrestricted airflow, ideal for low-contact applications and wellness purposes.
- Designed for use underneath high-performance gloves, this glove provides a comfortable, skin-friendly layer for users prone to skin sensitivities.
- Absorbs and manages sweat effectively, maintaining dry hands even under protective gloves, superior to cotton and ideal for high-intensity or prolonged tasks.
- The plant-based fibre properties can help to resist odour, providing a fresher feel, helping when using for long periods of time.
- Highly breathable and thermo-regulating, making this glove an ideal choice for environments with fluctuating temperatures. It keeps hands cool in warm settings and offers warmth in cooler conditions.

Ideal for:

- Protective lining for heavy duty glove
- Assembly & Inspection
- Wellness & Personal care
- Light indoor work
