

Features

- ESD – Designed to safely discharge static electricity and protect electronic components from electrostatic discharge events.
- Full Metal Construction
- Available in different sizes

RS PRO DRAWER UNIT WITH 1 LOCKABLE DRAWER

RS Stock No.: 0687566, 0687738

without paying a premium price.

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands

Product Description

ESD SUSPENDED DRAWER UNIT WITH 1 LOCKABLE DRAWER

Our single-drawer hanging units are ideal accessories for workspace organization, combining compact size with high functionality. Made from durable 1.0 mm thick sheet metal, they are resistant to daily use and provide long-lasting strength. The drawer, with a 25 kg load capacity, features full-extension slides, ensuring easy access to stored materials. A box lock protects the contents, and the optional soft-close feature enhances work comfort. This is an ideal solution for companies needing effective organization in spaces with limited area.

MODULAR DRAWER UNITS

In dynamic production and warehouse environments where space optimization and work organization are crucial, ESD modular drawer units are indispensable solutions. They combine functionality, durability, and aesthetics, supporting both operational efficiency and safety. Hanging drawer units, available in various sizes and configurations, are ideally suited to the specifics of any production line, enabling effective organization of tools and materials, helping to prevent clutter at workstations, and reducing the risk of damage. Each drawer unit is coated with an antistatic powder paint, providing protection against electrostatic discharges (ESD), which is especially important in the production of electronic components. The durable sheet metal with a thickness of 1.0 mm guarantees robustness, and full-extension drawer slides and an optional soft-close feature enhance user comfort. Box locks secure the stored materials, further increasing their safety.

Accessories compatible with L & H Type workbenches

Accessory Type: ESD DRAWERS

Stock No.	Product Name	Compatible RS PRO ESD workbench (mm)
0687566	ESD suspended drawer unit with 1 lockable drawer, 400x540x160, ball bearings guide, steel powder coated with antistatic paint	1200/1500/1800/2000
0687738	ESD suspended drawer unit with 1 lockable drawer, 400x540x160, ball bearings guide - silent closing, steel powder coated with antistatic paint	1200/1500/1800/2000
0687739	ESD suspended drawer unit with 2 lockable drawers, 400x540x306, ball bearings guide, steel powder coated with antistatic paint	1200/1500/1800/2000
0687740	ESD suspended drawer unit with 2 lockable drawers, 400x540x306, ball bearings guide - silent closing, steel powder coated with antistatic paint	1200/1500/1800/2000
0687741	ESD suspended drawer unit with 3 lockable drawers, 400x540x446, ball bearings guide, steel powder coated with antistatic paint	1200/1500/1800/2000

0687743	ESD suspended drawer unit with 3 lockable drawers, 400x540x446, ball bearings guide - silent closing, steel powder coated with antistatic paint	1200/1500/1800/2000
0687744	ESD drawer container with 4 lockable drawers, 400x505x659, equipped with castors/2 with brake, ball bearings guide, steel powder coated with antistatic paint	1200/1500/1800/2000
0687745	ESD drawer container with 4 lockable drawers, 400x505x659, equipped with castors/2 with brake, ball bearings guide - silent closing, steel powder coated with antistatic paint	1200/1500/1800/2000
