

**18000btu
Portable Air Conditioner**

Instant cooling and heating

We present the **NEW Koolbreeze Climateasy 18.**

Our New Flagship Portable Air Conditioner

Designed specifically to meet new European sound regulations, this innovation from **Koolbreeze** incorporates a new energy efficient compressor and a tough body to ensure long life. This portable air conditioner is designed for large rooms and offices where you require cooling or heating all year round. It can make your lounge or office cool and comfortable and thanks to its quiet operation, it won't disturb your train of thought.

This Portable Air Conditioner packs 18000btu of cooling (and 17000btu heating) power. This model is an air conditioner, heater, dehumidifier and fan. It is an energy efficient multi-season unit utilizing heat pump technology to extract heat from the air while consuming less energy than other portable units.

Our evaporative technology uses any collected moisture to cool the unit before it is eliminated through the exhaust ducts leaving no water bucket to empty.

**Multi-season air conditioner and heater in one
super compact unit**

SPECIFICATION

18000 BTU (5.2 Kw) Cooling

- 17000 BTU (5Kw) Heating
- 24-hour programmable on and off timer
- 70 Litre per day evaporative dehumidifier
- Adjustable thermostat down to 16C
