

## LENOX Bi-metal Jig Saw Blade – Wood

20313BT450

- Super sharp to cut fast without deflection
- Ground to precision sharpness for straight cuts and a smooth finish
- Designed for optimal performance in fine cutting wood
- Shatter resistant with bi-metal technology

### Description:

The LENOX Bi-metal T-Shank Jig Saw Blade 100mm has been constructed using bi-metal technology which flexes and resists breaking, delivering extended blade life. The ground to precision sharpness of the blade for straight cuts provides a smooth finish. The super sharp blade enables for fast precision cutting without deflection. Ideal for clean smooth cutting of wood.
