

LEMAITRE

OUTDOOR

LEMATO KNEE-HIGH SOCKS *building, public works*

THICK, WARM SOCKS ★★★★★

- good thermal insulation for outdoor work
- can be worn with boots
- keep the feet dry
- comfortable when carrying heavy loads

fine rib for a perfect fit

terry fabric providing comfort and thermal insulation

reinforced fabric in high-friction areas (heels, toes)

non-friction band, arch support

Moisture wicking

- The combination of PES Coolmax® and wool wicks away perspiration whilst providing excellent thermal insulation.
- This mix is used in ski equipment and is recognised for its effectiveness.

Comfort

- Minimal irritation thanks to reinforced terry fabric in the heel and toe areas.
- Semi-cushioned sole providing maximum comfort.
- A non-friction band protects the foot and provides relief all through the day

Fit

- Fine rib guarantees a perfect fit around the top
- Adjustment band around the foot
