

LEMO 00 Series connectors Standard cable assemblies on DEF-STAN 61-12 cable

LEMO 00 Series standard cable assemblies

These patchcord assemblies are provided with LEMO standard chrome finish plug connectors and black strain reliefs on each end of the cable and either crimp or solder contacts are used for best availability. Details of the range of 00 Series patchcord part numbers are given below and further details are available on our Standard cable assembly datasheet.

LEMO Connectors	Assembly part number	Description
FGG.00.302.CLAD35	UKS.00302FGGFGG002	FGG.00.302.CLAD35 terminated to FGG.00.302.CLAD35 with 2 metres 7-1-2C cable and DEF-STAN 61-12 pin-out
FGG.00.303.CLAD35	UKS.00303FGGFGG002	FGG.00.303.CLAD35 terminated to FGG.00.303.CLAD35 with 2 metres 7-1-3C cable and DEF-STAN 61-12 pin-out
FGG.00.304.CLAD35	UKS.00304FGGFGG002	FGG.00.304.CLAD35 terminated to FGG.00.304.CLAD35 with 2 metres 7-1-4C cable and DEF-STAN 61-12 pin-out
