## Datasheet

# VGA Extender - 80mtrs

RS Stock number [794-7120](#)

### Description:

Extend the distance between the PC and the display by 80 metres. The local unit receives the video signal from the PC and sends the signal to the remote unit(s) through a length of Cat5e cable. The remote unit connects to the display monitor. The power supply can be connected to either local or remote unit.

The VGA output can be adjusted via EQ and GAIN controls on the underside of remote unit.

### Specification:

- Extend the VGA signal up to 80 metres away by using the VGA Extender and one CAT5/CAT6 cable
- Supports "power over cable" technique, only one unit (Local or Remote) needs to connect to PSU.
- Both "Local" and "Remote" can act as the PSE (power source equipment).
- Maximum resolution: 2048 x 1536 60Hz (Dependant on length of extension)
- Equalization length is adjustable
- VGA signal gain is adjustable
- Metal Housing

### Contents

- Local & remote unit
- 1 x DC 12v 600ma PSU
- 1 x VGA cable male - male
- 1 User manual
