

TP workbench

The classically designed TP workbench is the ideal basic bench, the simplest and the most cost-effective option in our range of workbenches. TP workbenches are standard benches that are suitable for a broad range of tasks and environments when fitted with accessories: testing, packing, repairing, inspecting. TP bench is guaranteed for regular use with loads up to 300 kg.

The height of workbenches in our TP range can be steplessly adjusted from 650 to 900 mm, which makes these benches suitable for work while sitting or standing. Packing is a typical example of work where the workbench height must be set correctly for the height of the user.

Frames are of epoxy powder coated steel in grey RAL 7035. Upright tubes with accessory frame (ordered separately) allow to attach a wide range of accessories.

Bench size W x D mm	Max load kg	Code	Code RS Components	Code ESD	Code ESD RS Components
1200 x 700	300	TP712	1357333	TP712 ESD	1357334
1500 x 700	300	TP715	1357335	TP715 ESD	1357336
1800 x 700	300	TP718	1357337	TP718 ESD	1357338
1500 x 900	300	TP915	1357339	TP915 ESD	1357340
1800 x 900	300	TP918	1357342	TP918 ESD	1357343
