

FEATURES

- **Sintered Bronze Material:** Offers high strength and excellent wear resistance, making it suitable for demanding environments
- **1/2 in Length:** Compact size for versatile application in various machinery
- **0.62 in Outside Diameter:** Ensures a snug fit in compatible housings, enhancing stability
- **0.37 in Shaft Diameter:** Designed to accommodate standard shaft sizes, providing ease of integration

RS PRO 1/2 in Sintered Bronze Plain Bearing

RS Stock No: 528-092

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery, it provides excellent performance with minimal maintenance. The primary benefit of this bearing is its ability to reduce friction and wear, ensuring longevity and smooth operation.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.62 in
