

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1 in Length:** Suitable for various applications, providing flexibility in design.
- **0.94 in Outer Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **0.75 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing versatility.
- **Plain Bearing Design:** Provides smooth and quiet operation, ideal for high-speed applications.

**RS PRO 1 in Sintered Bronze Plain Bearing,
0.94 in Outer Diameter**

RS Stock No: 528-130

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low maintenance and durability are essential, this bearing provides smooth operation and long service life.
