

## Accessories

### Rear Mounting Storage Bracket

#### Application Information

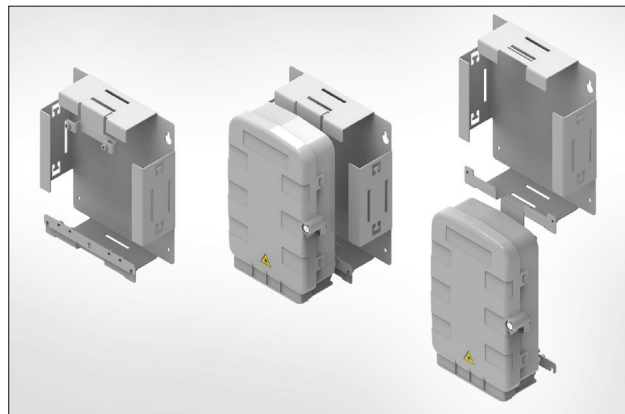

The Rear mounting storage brackets have been designed to allow for effective MDU wall mounting at both low and high levels. The MDU is affixed to a back plate which then secures to the wall mounted storage bracket.

It allows engineers to safely remove the MDU and bring it down to working level. The back plate also features a hook system that allows engineers to hang the MDU off the storage bracket and offers flexibility in working methods and environments.

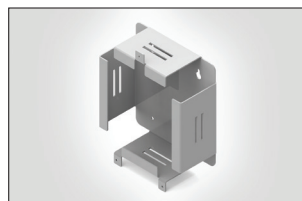

The storage bracket has been designed to hold and store up to 3 metres of drop cable. A number of anchor points are located around the bracket to allow for multiple cable tie points, ensuring stability and security for the stored drop cable.

#### Features and Benefits:

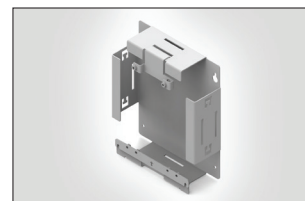

- Dual use; MDU mounting and drop cable storage
- Stores up to 3m of drop cable
- Allows easy removal of MDU to working level
- Integrated hook to hang the MDU from
- Multiple anchor points

Basket with MDU S1 in situ and hung off the Rear Mounting Storage Bracket..

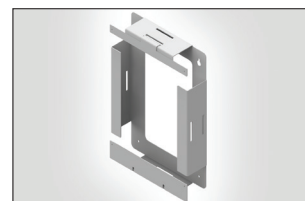

Unloaded MDU S1XS Basket.

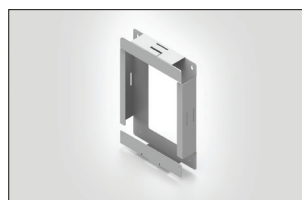

Unloaded MDU S1 Basket.

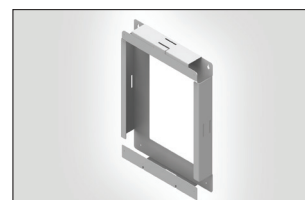

Unloaded MDU S2 Basket.

Unloaded MDU S3 Basket.

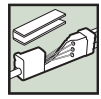

Unloaded MDU S4 Basket.

Unloaded MDU S5 Basket.

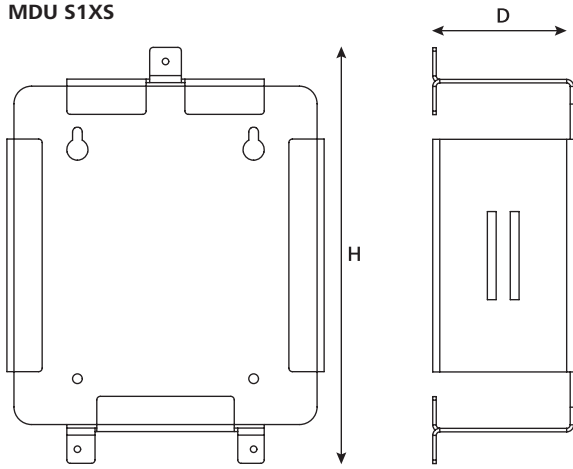

## Technical Data

Dimensions (mm)		Depth (D)	Width (W)	Height (H)
	MDU S1XS	80	180	236
	MDU S1	71	186	228
	MDU S2	62	206	368
	MDU S3	63	228	357
	MDU S4	63.5	285	416
MDU S5	65	360	521	
<b>Material</b>	Mild Steel			
<b>Colour</b>	Grey
