## Compound Action Snips

RS Stock number [509-9487](#)

### Description:

Straight cut, cuts straight and slight curves

Cuts low carbon cold rolled steel

Non-slip serrated jaw of tough molybdenum steel holds material firmly and uniformly spreads cutting force across blade edge

Withstands strain of cutting heavy stock

Spring-action for fast, effortless feed

Handles made of high tensile strength alloy steel that exceeds hand power limit

Non-slip, textured grips and safety latch

Yellow handles for ease of identification

### Specifications:

Cutting Capacity:

18 SWG

Material Cut:

Low Carbon Cold Rolled Steel

Overall Length:

171.45 mm

Type of Cut:

Left, Right
