

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring longevity.
- **Compact Size:** With a length of 1 inch and an outside diameter of 0.5 inch, it fits easily into tight spaces.
- **Optimised Shaft Diameter:** Designed for a shaft diameter of 0.37 inch, ensuring a precise fit and smooth operation.
- **Low Friction:** Reduces energy loss and wear, enhancing efficiency.
- **Corrosion Resistance:** Offers protection against environmental factors, extending service life.

RS PRO 1 in Plain Bearing, Sintered Bronze

RS Stock No: 528-086

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its compact size and robust construction ensure long-lasting performance in demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	0.5 in
