ADDED PROTECTION. AROUND THE CLOCK.

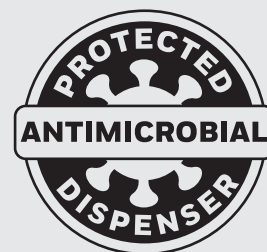

Cleaning and disinfection during all phases of reopening workplaces is a core component of keeping work environments safe. Introducing Honeywell's HL400™ Antimicrobial-Protected Dispenser for earplugs designed to meet today's safety needs. Benefit from a dispenser with built-in enhanced cleanliness.

HEARING PROTECTION – HYGIENICALLY DISPENSED

Benefit from your trusted hearing protection, now provided from a dispenser with built-in enhanced cleanliness.

Thanks to the antimicrobial-protected turn knob and catch tray surface, earplug dispensing is now cleaner.

The antimicrobial additive releases slowly to reduce the bioburden on the turn knob and catch tray, ensuring the product remains clean and does not require extra cleaning, thus, driving cost savings.

HL400-AM

Antimicrobial-Protected Dispenser

Universal hole positions — eliminates the need to drill new holes

Durable, recyclable plastic canister — an economical choice for dispensing earplugs

Easy twist knob with 180° of access — makes dispensing earplugs easy

Compatible with all Howard Leight™ disposable earplugs — MAX®, MAXLite®, Laser Lite® and X-TREME®

Available with prefilled canister and multiple refill options:

- Replace the empty canister.
- Refill the canister with a traditional zip-top bag.

HL400™-AM YOUR CHOICE IN HEARING PROTECTION

Allow employees easy access to hearing protection and make sure that the choices are specifically matched to the work environment.

A SELECTION OF HIGH-QUALITY EARPLUGS

HL400 antimicrobial-protected dispensers are compatible with any model from Howard Leight's wide range of in-ear hearing protection, providing the right fit for every user in every environment. Howard Leight's disposable foam earplugs are available in different sizes, shapes, materials and attenuation levels that accommodate both personal preferences and specific applications.

PRE-FILLED OR REFILL

Equip your team with a sufficient stock of suitable hearing protection solutions. Howard Leight offers two convenient ways to keep your dispenser full. Choose pre-filled canisters of 400 earplugs, made of recyclable plastic, or be more environmentally friendly by reusing the canister with the refill zip-top bags of 200 earplugs. No matter which version you prefer, HL400 provides you with a cost-effective solution, helping you reduce expenses while eliminating waste.

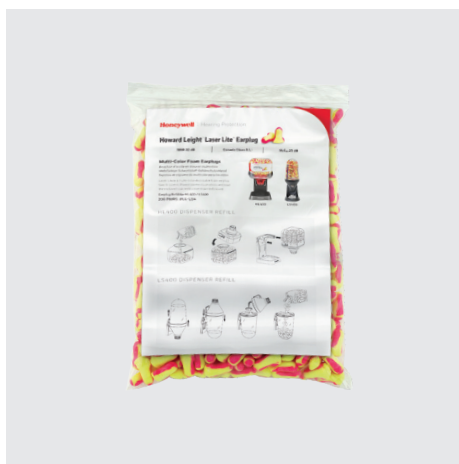

TABLETOP OR WALL MOUNT.

The HL400-AM base can fit on existing wall mounts of other dispensers, eliminating the need to drill new holes. The table base can also be mounted to a horizontal surface to ensure stabilization and prevent movement.
