DESCRIPTION

ORBITAL SANDER 150MM

The new RC92461S greaseless sander stands out for its ergonomic design and the maximum power that can be achieved thanks to advanced engineering. The greaseless mechanism and low air consumption of just 57 l/min also help to protect the environment. The special design ensures optimum sanding finish and maximum machine life. The machine has an eccentric movement diameter of 5 mm and is equipped with a new 15-hole sanding pad, so that in theory all types of sanding paper can be used (6, 7, 8 or 15-hole sanding paper).
