

Cig-Arrete CSA-POD24

The SpeechPOD24 SD Evolution is the first product to incorporate SD flash memory technology. **SpeechPOD24** SD Evolution incorporates a PIR motion sensor and is designed to provide any type of voice messages be it to warn of risks or hazards such as slips, trips and falls, infection control procedures, hygiene requirements, security monitoring. The SpeechPOD24 can detect persons at a distance of 6 metres. Fully programmable with a simple hand held remote **CSA-IR2**.

- Detect persons at a distance of 6 metres
- Plays pre-programmed voice files
- Can be powered by 24Vdc or AA batteries
- Up to 100 messages can be programmed
- Selectable time delays between messages
- Hi-Resolution voice playback
- Cleaners Mode preset message feature

SpeechPOD24 SD Evolution is a truly global product with the ability to play any audio file in any language without the need for complex programming knowledge.

Product Features

On sensing the presence of people, CSA-POD24 Speech Pod will play any pre-programmed voice files in any language. Time delays between messages are selectable via the remote programmer to ensure that the message is broadcast at the right time.

Up to 100 messages can be pre-programmed and selected either individually or sequentially where each message in the list is played in turn on each activation.

The special 'Cleaner Mode' allows cleaners to set a warning message for a wet and slippery floor. After a preset time, SpeechPOD24 reverts to its original settings without the need for manual intervention.

Contains a Windows® based file structure which allows simple 'drag and drop' file copying for ease of programming. New SmartWave© hi-resolution voice playback software produces crystal clear hi-fidelity audio files to be broadcast in any location.

Cig-Arrête® SD Evolution units can be powered simply by 8-28Vdc or by 4 x AA batteries (not supplied)

Dimensions 197L x 127W x 28.5H mm

Weight 0.6kg

ALL of the SD Evolution units require a CSA-IR2 remote control.

One CSA-IR2 can control multiple units. You **do not** need one remote per unit.
